Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not, alone or in combination, disclose an integrated circuit comprising at least one first magnetic field generator and a second magnetic field generator for generating a magnetic field for magnetizing nano-particles to generate a second magnetic field component in the sensitive direction of at least one magneto-resistive sensor, the integrated circuit further comprising at least one noise optimization circuit adapted for stabilizing the net magnetic field strength in the sensor by compensating for the second magnetic field component (claim 1); determining an operation point of the magneto-resistive sensor by minimizing the noise at the output of the magneto-resistive sensor, applying a second magnetic field for magnetizing nano-particles, thus generating a second magnetic field component in the sensitive direction of the magneto-resistive sensor, adjusting the first magnetic field component (claim 13).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

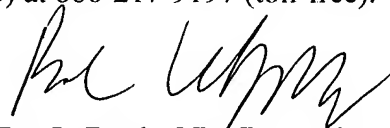

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Bot LeDinh whose telephone number is 5712722231. The Examiner normally does not work on Fridays. The examiner can normally be reached on Maxiflex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Lefkowitz can be reached on 5712722180. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
